When donors want to text to give, they will text the dollar amount and the appropriate keyword to Elexio's shortcode **301-31** or **30131**. (Ex. "$20 CBCGIVE") The order does not matter. Donors can text the keyword before the dollar amount.
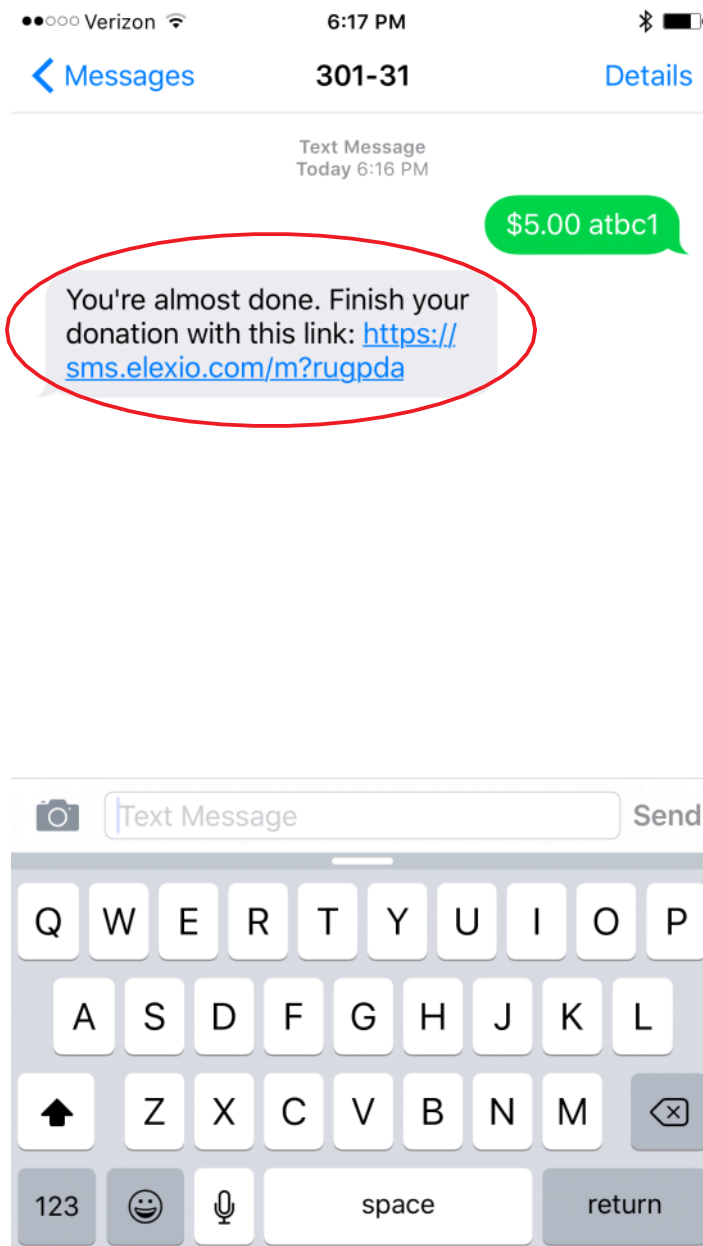

Please Note You **MUST include a space** between your keyword and dollar amount. If you do not, the system will not recognize that you are trying to make a donation.

Note: When a donor texts their donation, the dollar amount can be formatted any way. (Ex. $5 / $5.00 / 5 / 5.00)
